

Technical sheet

Anchor type : 12-¼ Connector

3" X 12-¼" of type 304 16 gauges (0.059) stainless steel material. With: 12 holes ¼", 6 holes ½" and 2 holes ¾".

Characteristics :

- Qualify AISI: 304
- Alloy for general applications which the corrosion resistance is superior to some stainless steel # 302 thanks to the control of the concentration of carbon.
- Breaking load: 85000 lb / po²
- Elastic limit: 35000 lb / po²
- Strain on test tube of 2 po: 60-50 %
- Hardness Rockwell: B80
