

Technical sheet :

Anchor type : Connector Pintle

3.250" height x 130mm width x 25mm centres of type 304 wire Ø 187 stainless steel material.

Characteristics :

- Qualify AISI: 304
- Alloy for general applications which the corrosion resistance is superior to some stainless steel # 302 thanks to the control of the concentration of carbon.
- Breaking load: 85000 lb / po²
- Elastic limit: 35000 lb / po²
- Strain on test tube of 2 po: 60-50 %
- Hardness Rockwell: B80

Making :

MAJESTIC metal product.
